

# Bump Bar

PB20

Custom Keyboard for Kitchen  
Tough Jobs

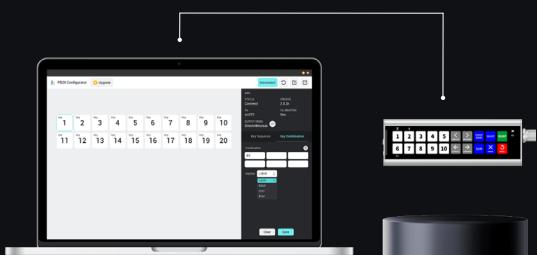

## Aluminum Housing

Metal housing to guarantee long-lasting durability in tough kitchen environments.

## Programmable and Configurable

Customers can easily reprogram the button values as they want and load to PB20 with the tool provided in the field.

## Advanced Keypad Technology

With the first implementation of magnetic keys, PB20 will have a significantly longer key life, provide tactile feedback, and reduce cost, while keeping the device dust and water resistant.

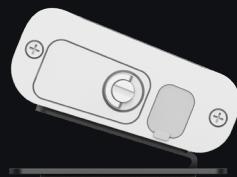

## Field Replaceable Icon of Keys

Templates can be provided for customers to print and slide under the button protective film if buttons are reprogrammed.

## Wireless and Wired connectivity

Dual interface allows customer the freedom to choose whether they want to connect this bump bar via USB cord for wired application.
